SMART & SAFE

AEGIS

Aegis is more than a water purifier. It's a smart hydration system for commercial and public spaces. Featuring 9-stage filtration, real-time monitoring, child safety locks and it can store **upto 24 Liters Storage Capacity**. It delivers clean, safe, and great-tasting water. With UV protection and mineral infusion, every drop is pure peace of mind.

SMART MONITORING SYSTEM

FILTER LIFE

Aegis smart monitoring system provides real-time filter health data to ensure every drop is safe and pure.

TDS

Input and Output real time TDS display

SEAMLESS DRAINAGE

Efficient water release keeps the dispenser clean and mess-free.

FAULT DETECTION SYSTEM

Detect faults like water leakage etc.

FEATURES

SMART MAINTENANCE IOT

Enjoy worry-free performance with maintenance automatically scheduled by an intelligent IOT backend system.

ANTI-LEAK MECHANISM

Clean and worry-free hydration.

SMART DISPENSING

Hygienic, modern, and effortless.

AUTO RINSING

Protects machine, ensures longer life internally for filters.

SPECIFICATIONS

MODEL	AEGIS - FLOOR STANDING
DIMENSION	1440 cm X 600 cm X 470 cm
GROSS WEIGHT	40 KG
NET WEIGHT	35 KG
POWER SUPPLY	AC 220V
FILTRATION STAGES	9 STAGES (RO + UV)
FILTERS MAINTENANCE	3200 LITERS OR 1 MONTH (WHICHEVER COMES FIRST)
RATED POWER	300 W
BODY TYPE	STAINLESS STEEL 304
WATER STORAGE CAPACITY	COLD 12 LITERS, AMBIENT 12 LITERS

WATER FILTRATION JOURNEY

PP FILTER

Removes large particles like rust, sand and dirt upto **10 microns**.

C1 FILTER

Pre-Carbon Filter

Absorb chlorine, bad tastes, unpleasant odors, and other chemical impurities. It also absorb any color present in source water.

WATER FILTRATION JOURNEY

PPC FILTER

(Sediment PLUS
Pre-Carbon Filters)

- a) Removes particulates (*upto 1 Micron*)
- b) Remove chlorine, *volatile organic compounds (VOCs)* and absorb color and odour.

RO FILTER

Removes heavy metals, viruses, microbes, and dissolved impurities with a *0.0001 micron* pore size.

WATER FILTRATION JOURNEY

MAC FILTER

Adds essential minerals, prevents bacterial regrowth, and polishes the taste.

UV LAMP

Inactivates up to **99.995%** of bacteria like E.coli and sterilize the water.

***Disclaimer:** According to the Sterilisation Performance Assessment and Drinking Water Quality Standards by TÜV SÜD Korea Ltd., the UV sterilisation result achieved is up to **99.9%** antibacterial efficacy for E.coli, S.aureus and Paeruginosa. The presented test results are measured in a closed and controlled experimental environment.

PROBLEM SOLUTION

PROBLEM

Runs out of water bottles
at unexpected moments.

Bad taste & smell in
your bottled water.

High water cost?

Doubts about water
purity.

Water bottles take up a
lot of storage space.

Risk of diseases from
bacteria & viruses .

SOLUTION

Enjoy uninterrupted
access to pure drinking
water.

Our advanced
purification system
ensures fresh, clean taste.

Save up to 10x compared
to bottled water.

Real-time TDS display
shows water purity
instantly.

Converts tap water into
natural mineral water, no
plastic bottles needed.

UV sterilization
eliminates 99.9% of
germs and viruses.
